

ECI.NETWORKS

ECI Networks is the trusted expert and supplier of end-to-end optical communication solutions

backed by outstanding service and support. Our customers rejoice ZERO network downtime deploying our break-through innovative optics that support ZERO touch provisioning, test automation, service turn-up, and monitoring.

ECI Networks has also partnered with leading open-networking manufacturers to offer co-branded white box solutions to allow for more flexibility, higher cost savings, and efficient scalability of your network infrastructure. By separating the hardware from the software layer, companies will realize huge savings along with the opportunity to load any OS they want, whenever they want.

Our product categories include:

- Network Optics
- Cables & Accessories
- WDM & TAPs
- Co-Branded White Box Solutions

All our products including our optical transceivers are priced aggressively, designed in Canada, and are hard coded to work with every major manufacturer including and not limited to Cisco, Juniper, F5, Fortinet, Nokia, Alu, EMC, Radware, Lenovo, Ixia, Spirent, Enterasys, Siemens, Brocade, HP, Avaya, Extreme, etc...
